

# ADVANCED ANTIOXIDANT

Harnessing the power of nature's most potent antioxidants. Advanced Antioxidant is a powerhouse blend designed to fight the oxidative stress created by free radicals, unstable molecules that can damage cells, proteins, and DNA, leading to accelerated aging, inflammation, and increased risk of chronic diseases. This cutting-edge formula is designed to provide you with the ultimate support and protection for a healthy and vibrant life.

- **Vitamin A:** Supports healthy vision and a strong immune system.
- **Vitamin C:** Helps enhance skin health, and aids in fighting oxidative stress.
- **Vitamin E:** Helps scavenge for loose electrons that do damage to cells.
- **NAC:** Plays a key role in supporting respiratory health, detoxification, and promoting a balanced immune response.
- **CoQ10:** Supports heart health, boosts energy levels, and helps protect against oxidative stress.
- **ALA:** Known as the “universal antioxidant,” ALA helps regenerate other antioxidants in the body.
- **L-Carnitine L-Tartrate:** Supports healthy metabolism, promotes energy production, and aids in muscle recovery and repair.
- **Quercetin:** Helps support overall health and vitality.

## Supplement Facts

**Serving Size: 1 Capsule**

**Servings per container: TBD**

N-Acetyl-L-Cysteine	120 mg	*
Co-Enzyme Q10 (Ubiquinone)	50 mg	*
Alpha Lipoic Acid	50 mg	*
L-Carnitine L-Tartrate	29 mg	*
Quercetin (from <i>Sophorae japonica</i> ) (Flower)	1 mg	*

\* Daily Value not Established

**Other Ingredients:** Hydroxypropyl Methylcellulose, Microcrystalline Cellulose, Stearic Acid, Magnesium Stearate, Silica, TBD.

**Suggested Use:** Adults, take one (1) capsule with water, preferably with a meal, as a dietary supplement, or as directed by a doctor.

**Oxidative stress** is a natural process that occurs in the body as a result of normal cellular metabolism. However, it can be intensified by external factors such as pollution, poor diet, stress, and exposure to toxins. High oxidative stress is linked to chronic fatigue, memory loss, brain fog, muscle/joint pain, poor eye sight, and premature aging, just to name a few.
