

VITAMIN B COMPLETE

B-Complete is a state-of-the-art comprehensive B-Vitamin supplement that utilizes only the highest quality ingredients that work harmoniously to help boost metabolism and energy, enhance the immune system and nervous system, keep the skin and muscles healthy, and encourage cell growth and division. This enhanced and upgraded formulation has been synchronized to work in harmony with other IDLife products such as the new Advanced Daily and Methylation+ formulas.

- Includes biologically superior coenzyme forms of Folate (5-MTHF) and Methylated B12.
- Meets childbearing dosage requirements.
- May help boost metabolism and energy levels, enhance the immune system and nervous system, keep the skin and muscles healthy, and encourage cell growth and division.

Heart

B-Complete offers several benefits for heart health through its carefully selected blend of B-Vitamins and other complementary components. B-Complete's comprehensive formulation works synergistically to support heart health by assisting in the management of key factors such as homocysteine levels and lipid profiles, thereby contributing to overall cardiovascular well-being.

Energy

B-Complete offers a myriad of benefits to energy levels by harnessing the power of its thoughtfully curated blend of B-Vitamins. This comprehensive array of B-Vitamins in B-Complete synergistically works to enhance energy metabolism, ultimately promoting greater overall vitality and endurance.
