

CALCIUM+

Calcium+ is a superior bone health supplement because it incorporates highly bioavailable forms of calcium with a synergistic blend of vital nutrients. This comprehensive formula ensures not only high elemental calcium levels but also a harmonious interplay of essential components, making IDLife's Calcium+ a top-tier choice for optimal bone strength, density and health.

Comprehensive Bone Support

High Bioavailability: Utilizes forms of calcium with high absorption rates, potentially providing more effective results.

Complete Formula: A well-rounded supplement addressing various aspects of bone health with a synergistic blend of ingredients.

Supporting Cast: The "+" in Calcium+ comes from the inclusion of supporting nutrients that work together to promote optimal bone strength, density and health.

Bone

Calcium+ delivers unparalleled benefits to bones, promoting optimal strength and density. Complemented by a strategic blend of essential nutrients including Vitamin D3, Vitamin K – MK7, Beta Carotene, Manganese BisGlycinate, and Boron Amino Acid Chelate. With a focus on bioavailability and a complete array of bone-nourishing components, Calcium+ stands as a formidable solution for maintaining robust and healthy bones.

Heart

Calcium+ extends significant benefits to the heart. The inclusion of Vitamin K – MK7 plays a crucial role in cardiovascular health by contributing to the regulation of calcium and preventing its accumulation in arteries. Furthermore, the supplement's comprehensive formula, featuring essential nutrients like Beta Carotene, Manganese BisGlycinate, and Boron Amino Acid Chelate, supports overall cardiovascular well-being.

Supplement Facts

Serving Size: 1 Capsule

Amount Per Serving	% Daily Value	
Vitamin A (as Beta Carotene)	2300 mcg RAE	255%
Vitamin D3 (from Cholecalciferol)	10 mcg	66%
Calcium (from Calcium Carbonate, Calcium Orotate & Calcium Aspartate)	228.95 mg	22%
Zinc (as Zinc Citrate Dihydrate)	3.1 mg	28%
Copper (from Copper Bisglycinate Chelate)	0.73 mcg	0%
Manganese (as Manganese Bisglycinate Chelate)	0.31 mg	13%
Boron (as Bororganic Glycine)(TRAACS®)	1 mg	*
Vitamin K (as Phytonadione and Menaquinone MK-7)	52.4 mcg	*

* Daily Value not Established

Other Ingredients: Stearic Acid, Magnesium Stearate, Silicon Dioxide Micronized

Strength

Calcium+ uniquely contributes to overall strength with its advanced formulation. By optimizing calcium absorption through highly effective forms like Orotate and Aspartate, it directly supports muscle function and endurance. The supplement's comprehensive blend, enriched with nutrients such as Vitamin D3, Manganese BisGlycinate, and Boron Amino Acid Chelate, fosters the proper functioning of enzymes and hormone regulation crucial for strength development.
