

VITAMIN D3+

The “Sunshine Vitamin” has been combined with Vitamin K2 MK-7 to create a powerhouse blend that provides support for immune, bone and cardiovascular health, and helps play a critical role in inhibiting arterial calcification from Vitamin D3 and calcium supplementation. If that wasn't enough, the oil based formulation is wrapped in a Turmeric shell to provide an unmatched supplement full of all the amazing benefits people have come to expect from IDLife's tailored formulations.

- May provide a key nutrient necessary for proper immune function and to maintain bone health.
- May help regulate calcium and maintain phosphorus levels in the blood, both necessary for healthy bones.
- May help inhibit arterial calcification associated with supplementation with Vitamin D and Calcium.
- Provides nutrients scientifically shown to be critical for overall cardiovascular health.
-

Bones - IDLife's Vitamin D3+ holds the potential to significantly benefit bone health through its strategic combination of key ingredients. Vitamin D3 (Cholecalciferol) plays a pivotal role in facilitating the absorption of calcium from the digestive system into the bloodstream.

Supplement Facts

Serving Size: 1 Capsule

Servings per container: TBD

Amount Per Serving	% Daily Value	
Vitamin D3 (from Cholecalciferol)	25 mcg	166%
Vitamin K2 MK-7	25 mcg	21%

Other Ingredients: Safflower Oil, Gelatin, Glycerin, Purified Water, Turmeric Extract

Skin - IDLife's Vitamin D3+ offers multifaceted benefits for skin health through its thoughtfully curated composition. Vitamin D3 (Cholecalciferol) supports skin health by aiding in the regulation of immune responses and inflammation, potentially contributing to conditions like acne and psoriasis.
