

HEART HEALTH+

IDLife's groundbreaking Heart Health+ formula was meticulously crafted to elevate overall cardiovascular well-being. This blend features Olive Leaf Extract, Grape Seed Extract, and Vitamin K2 (as Menaquinone MK-7), harmoniously working together to provide a comprehensive shield against oxidative stress and inflammation. By promoting and supporting optimal blood circulation, healthy cholesterol levels, and directing calcium away from arteries, Heart Health+ offers a holistic approach to cardiovascular health.

- **Oxidative Stress Defense:** Powerful antioxidants in Olive Leaf and Grape Seed Extract protect the heart and blood vessels.
- **Improved Blood Circulation:** Grape Seed Extract helps enhance blood circulation, contributing to overall cardiovascular well-being.
- **Cholesterol Management:** Olive Leaf Extract aids in reducing LDL cholesterol levels.
- **Arterial Calcification Prevention:** Vitamin K2 (MK-7) directs calcium away from arteries, guarding against harmful calcification.
- **Synergistic Effect:** The combination of ingredients works together, amplifying the overall efficacy of the formula.
- **Inflammation Reduction:** Polyphenols in Olive Leaf Extract contribute to lowering inflammation and blood pressure.

Heart

IDLife's Heart Health+ formula is a potent blend of Grape Seed Extract, Olive Leaf Extract, and Vitamin K2 (as Menaquinone MK-7), working synergistically to promote overall heart health. The antioxidant-rich Grape Seed Extract helps protect against oxidative stress, Olive Leaf Extract helps reduce inflammation and regulate blood pressure, while Vitamin K2 helps ensure proper calcium management, helping to reduce arterial calcification. This comprehensive approach addresses multiple cardiovascular risk factors, supporting optimal blood circulation, cholesterol levels, and safeguarding against potential heart-related issues.

Vitamin K2 (as Menaquinone MK-7)	103 mcg *

* Daily Value not Established

Other Ingredients: Hydroxypropyl Methylcellulose, Microcrystalline Cellulose, Magnesium Stearate, Silica.

Bones

While the primary focus of IDLife's Heart Health+ formula is cardiovascular support, the inclusion of Vitamin K2 (as Menaquinone MK-7) plays a crucial role in promoting overall bone health. Vitamin K2 directs calcium to bones and teeth, preventing harmful deposition in arteries and soft tissues. This dual-action approach not only fortifies cardiovascular resilience but also supports bone density, aiding in helping to avoid the ill effects of conditions like osteoporosis.

Menopause

While IDLife's Heart Health+ primarily targets cardiovascular wellness, its key components, such as Grape Seed Extract and Olive Leaf Extract, may indirectly offer benefits during menopause. The antioxidant-rich Grape Seed Extract might assist in managing oxidative stress, potentially alleviating symptoms associated with hormonal changes. Olive Leaf Extract, with anti-inflammatory properties, could contribute to overall well-being.
