Comprehensive Immune System Support

Through a carefully chosen and intentional combination of antioxidant free radical scavengers, Immune Defense provides a nutritional boost to the immune system and overall energy levels.

Immune

Immune Defense is crafted to fortify and enhance the immune system through a synergistic blend of key ingredients. Vitamin D3 supports immune function, aiding in the body’s defense. Olive Leaf Extract provides antioxidant properties, contributing to overall immune health. Astragalus Root Extract is known for its immune-boosting and anti-inflammatory properties. Echinacea Purpurea stimulates the immune system, while Zinc Citrate plays a crucial role in immune function control. Elderberry Extract and Vitamin C offer additional immune support through antioxidants and white blood cell stimulation. These components form a comprehensive defense system, supporting the body’s ability to respond to immune challenges and promoting immune resilience.

Energy

While Immune Defense is primarily designed to support immune health, its key ingredients can
