

PROBIOTIC+

Probiotic+ represents a meticulously curated fusion of 34 Billion cfu per capsule of 12 distinct probiotics. This sophisticated blend delivers essential probiotics that help overall well-being, cultivate a resilient immune system, reduce unwanted inflammation, foster weight loss, and optimize digestion. The “plus difference” is in the diversity and scientifically validated impact of probiotic strains, coupled with their substantial volume, creating a truly unparalleled support for overall gut health.

Lactobacillus Plantarum 299V®	Streptococcus Thermophilus
Bifidobacterium Longum	Bifidobacterium lactis
Lactobacillus Casei	Lactobacillus rhamnosus
Lactobacillus acidophilus	Lactobacillus reuteri
Bifidobacterium bifidum	Lactobacillus salivarius
Bifidobacterium infantas	Lactobacillus fermentum

Comprehensive Gut Microbiome Support

The main benefit of Probiotic+ is its comprehensive support for a healthy gut microbiome. Probiotic+ aims to enhance overall wellness by promoting a robust immune system, reducing inflammation, supporting weight loss, improving digestion, and maintaining a resilient gut barrier. With 34 Billion cfu per capsule, Probiotic+ is your secret weapon to support normal digestive function and optimize nutrient absorption.

Immune

Studies suggest that probiotics are a safe, effective and non-pharmaceutical way to strengthen the intestinal tract and given that approximately 70% of the immune system is found in this site it's essential to keep it in balance. Probiotics (friendly bacteria) increase antimicrobial protection which kills or inhibits harmful microorganisms such as germs, bacteria, fungi, viruses and parasites that cause disease. A meta-analysis on the effectiveness of probiotics on the duration of acute respiratory infections found that participants had significantly
