

# VISION+

By following the research found in the National Eye Institute's AREDS2 study\*, IDLife has formulated Vision+ to be proactive in helping preserve clear and vibrant vision for as long as possible. For people at high risk of developing advanced stages of age-related macular degeneration (AMD), The NEI study found that when supplementing with the nutrients found in Vision+, the risk of developing AMD was reduced by as much as 25%.

- **Antioxidant Protection:** Vitamin C and Vitamin E provide potent antioxidants that help shield the eyes from oxidative stress and potential damage caused by free radicals.\*\*
- **Retinal Health:** Zinc and Copper play vital roles in maintaining healthy retinal function, contributing to overall visual health and supporting the function of photoreceptor cells.\*\*
- **Blue Light Filtering:** Lutein and Zeaxanthin act as natural filters, helping to absorb harmful blue light from digital screens and sunlight, potentially reducing the risk of eye strain and discomfort.\*\*
- **Macular Health:** Lutein and Zeaxanthin are specifically associated with maintaining macular health and potentially reducing the risk of age-related macular degeneration (AMD), a common eye condition that affects central vision.\*\*

## Eyes

Vision+ is meticulously crafted to help provide comprehensive benefits for eye health. Enriched with a blend of essential nutrients, including Vitamin C, Vitamin E, Zinc, Copper, Lutein, and Zeaxanthin, Vision+ is designed to fortify and support various aspects of visual well-being. The antioxidant properties of

## Supplement Facts

Serving Size: 1 Capsule

Amount Per Serving		% Daily Value
Vitamin C (Ascorbic Acid)	250 mg	278%
Vitamin E (as d-alpha-Tocopheryl Acid Succinate)	134 mg	893%
Zinc (from Zinc Oxide)	40 mg	364%
Copper (from Cupric Oxide)	1 mg	111%
Lutein [from <i>Tagetes erecta</i> L. (flower)]	5 mg	*
Zeaxanthin [from <i>Tagetes erecta</i> L. (flower)]	1 mg	*

\* Daily Value not Established

**Other Ingredients (in descending order of predominance by weight):** Rice Bran, Gelatin (Capsule), Food Starch - Modified, Silica, Vegetable Magnesium Stearate, Sucrose, Plant Gelatin.

Vitamin C and Vitamin E help shield the eyes from oxidative stress, while Zinc and Copper play pivotal roles in maintaining retinal health and supporting photoreceptor cells. Lutein and Zeaxanthin, natural compounds found in the eyes, contribute by filtering harmful blue light and potentially reducing the risk of age-related macular degeneration. This synergistic formulation aims to promote optimal eye health, preserve clear vision, and protect against the potential impacts of modern screen-centric lifestyles, making Vision+ an essential tool for those seeking to safeguard their precious eyesight.
