

DHEA

DHEA is a naturally occurring hormone in the body that is secreted by the adrenal gland. DHEA has been shown to have beneficial effects on memory, stress, anxiety, the immune system and sleep function.

EVENING PACK

- Aids in the prevention of muscle loss and weakness
- Supports proper adrenal function
- Helps reduce oxidative stress & fatigue
- Helps improve sleep cycles

DHEA (dehydroepiandrosterone) is an endogenous hormone (made in the human body) secreted by the adrenal gland. DHEA has been shown to have beneficial effects on memory, stress, anxiety, the immune system and sleep function, but levels steadily decline after age 35.*
