

SANITIZE+

This revolution in hand sanitizer provides a protective shield from harmful bacteria while also moisturizing your skin. It's unlike any sanitizer you've used before, providing up to 4 hours of protection.

DIRECTIONS:

Apply a small amount to hands and rub until dry. Lotion does not replace soap and water.

BENEFITS:

- Protection against 99.9% of common household germs for up to 4 hours.*
- Two products in one: a hand sanitizer and a Lotion.
- Patented formula is made with 7 moisturizers, 6 botanical extracts, 2 vitamins, and antioxidants.
- Non-greasy, non-flammable, and includes 98% natural ingredients.

FAQs:

HOW DOES IDLIFE SANITIZE+ DIFFER FROM A STANDARD ALCOHOL-BASED SANITIZER?

Alcohol sanitizers kill germs, but they also dry out your skin, cause irritation, and only provide a limited window of protection. Sanitize+ not only provides a shield of protection against 99.9% of common household germs for up to 4 hours, it is also two products in one: a Hand Sanitizer and a Lotion! The patented formula is made with 7 moisturizers, 6 botanical extracts, 2 vitamins, antioxidants, is non-greasy, non-flammable, and includes 98% natural ingredients. And unlike the standard 2oz bottle of alcohol based sanitizers that provide 20-30 applications, when used as directed Sanitize+ offers over 100 applications per bottle!

HOW OFTEN SHOULD I APPLY SANITIZE+ DAILY?

Applying Sanitizer+ 3 times per day (every 4 hours) will customarily provide up to 12 hours of protection. Keep in mind, if your daily activities expose you to higher traffic areas (riding public transportation, handling money, touching elevator buttons or door handles) or other increased exposure to germs, additional applications could be warranted.

CAN KIDS USE SANITIZE+?

Yes! However, children need to be instructed on how to use Sanitize+. Keep Sanitize+ out of reach of unsupervised children & avoid getting the product in their eyes.

DOES THIS PRODUCT CONTAIN ANY FRAGRANCE?

Yes. Natural mint is in the formula for a great scent!

IS THIS PRODUCT OKAY FOR SENSITIVE SKIN?

Sanitize+ is not hypoallergenic. If redness or irritation occurs discontinue using.

DO YOU USE ANIMAL TESTING ON THESE PRODUCTS?

No.

WHAT IS THE #PLUSDIFFERENCE?

Sanitize+ offers a sanitizer that kills 99.9% of common household germs and a moisturizing lotion made with 7 moisturizers, 6 botanical extracts, 2 vitamins, and antioxidants. Now you have a single product that does both: Sanitize and Moisturize while also providing up to 4 hours of protection for you and your family.*

*Effective at eliminating 99.9% of many common harmful germs and bacteria in as little as 30 seconds.

THE SCIENCE OF SANITIZE+: PROBLEM & SOLUTION

There's a good chance you have a bottle or two of alcohol-based hand sanitizer in your home these days. Hand sanitizer is a simple and effective alternative to protecting your hands from germs when soap and water are not available. These products are easy to apply, work quickly, are convenient, can come in many different forms, and can provide protection from harmful germs and bacteria.

THE PROBLEM:

- Many hand sanitizers leave your skin feeling dry or irritated.
- Alcohol-based hand sanitizers come with a risk of alcohol poisoning if ingested, making them a dangerous product for children.
- If applied incorrectly, they are not entirely effective in the fight against germs and harmful bacteria and protection only lasts for a short period of time.

THE SOLUTION:

- IDLife's Sanitize+ is not alcohol-based and combines the benefits of sanitizer with the comfort of lotion, so it does not leave your hands feeling dry or irritated after application!
- This non-greasy, non-flammable product contains 98% natural ingredients.
- The protection provided by Sanitize+ lasts for up to 4 hours with every application. You can rest easy knowing you and your loved ones are protected all day long.*

**Effective at eliminating 99.9% of many common harmful germs and bacteria in as little as 30 seconds.*

“My hands feel so soft & I have peace of mind that they are protected while I am out and about” — Alise K.
